

BE SEEN - BE SAFE Safety and emergency beacon visible for more than 1km at night!

BIG MARKET FOR VERSATILE BEACON

Special promotion...

The Eflare TF510R is a top safety beacon. This is a highly visible red safety flash and also switches to a powerful torch.

This product has many applications, including transport. They like the fact that it not only is a compact and very effective safety beacon but quickly doubles into a torch for site work and breakdowns. Also, with alkaline batteries it can be stored for years.

The TF510R has a top professional grade specification:

- 30 candela beacon and 200 candela torch.
- 40 hours battery operating life.
- Low battery indicator.
- Tough Eflare industrial construction.

This safety beacon really impresses everyone when demonstrated. No one else has got anything like it. This is a stand-out product with a huge potential market.
