

BE SEEN - BE SAFE Safety and emergency beacon visible for more than 1km at night!

Big Police Sales

Police forces the world over are now increasingly using Eflare safety beacons. For example, Eflare beacons have sold to police forces around the globe with examples being:

- Germany EF512 Amber
- UK HZ510 Blue
- Australia HZ530 Red & Blue
- USA HZ610 Red (this is the latest police unit to join the popular line-up)

Police forces like the way the compact beacons can be easily carried, there is a choice in colours to suit their local conditions and the accessory line-up allows for a choice in mounting. They use Eflares for a variety of situations where the versatility means it can always be positioned to maximize safety.

Australia's use of a dual colour flash in red & blue is not unique as the Singapore police are also using this same HZ530 unit. Additionally, the Hong Kong police are now trailing the HZ510 Blue after its recommendation from the UK force.

Marine Beacon Timed To Sell

Within a month, the big Australian consumer marine summer begins to wake up from its winter off-season. And Eflare has the perfect product in the all-new TF610 White. This not only complies with boating regulations to have a white light and a torch but also combines an emergency flashing safety beacon - all selected by its smart 3 way switch.

Eflare Tops in Trade Shows

October is a very business month for exhibiting Eflare safety beacons. The world-class Australian Mining Exhibition in Kalgoorlie, WA, has the new Eflare display on three stands while the same week at the Sydney Safety Show has the Eflare display on two stands. And while all this is going on, another unit is working to our north at the Indonesian Mining Exhibition.

If you need an Eflare display unit for your next trade show ring the Eflare Melbourne office on (03) 9525 3366.

Get Ready for the Fire Season

Australia's long hot summer is about to hit and with it the emergency services will soon be at full stretch.

Now is the time for all Eflare distributors in Australia to make sure they've contacted their local management in the CFA or local fire fighters, State Emergency Service, police and ambulance which all buy the very popular HZ530 Red & Blue dual flash.
